

HYDROPLAST 250GP

HIGH RANGE SNF BASE WATER REDUCING AND STRENGTH ENHANCING ADMIXTURE

CONCRETE ADMIXTURE

PRODUCT DESCRIPTION

Hydroplast 250GP is a brownish, ready to use, mid-range water reducing and strength enhancing admixture. It is design to produce high workability and high strength concrete at low w/c. it is always available.

TYPICAL APPLICATION AREA

- High workability for long distance transport
- Reduced water to cement ratio for high strength concrete.
- Delay in setting time for extended workability.
- Low pumping pressure for pumped concrete
- Reduced thermal peaks for casting in hot climate
- Reduction in water intake for ultimate strength.
- Quality concrete at low cost.

WORKABILITY AND STRENGTH

Hydroplast 250GP is a ready to use, mid-range, SNF base water reducing, slump retaining and strength enhancing admixture. This product has got several fit back from client concerning improved workability, durability and both compressive and flexural strength.

Workability could be affected by the temperature condition, type of cement and the nature of aggregate. Therefore, it is strongly advised that concrete materials should be carefully selected.

APPLICATION GUIDELINE

Dosage of Hydroplast 250GP is determine in trial batch, to serve as guide, we recommend using 0.8 to 1.5% of the cementitious material, dosage also depend on the design mix requirement. There is no effect on concrete if higher dosage is been used.

COMPATIBILITY

Hydroplast 250GP is compatible with all grade of cement (32.5, 42.5, 52.5) and most air entraining agent, can be used with all grade of aggregate meeting the ASTM standard.

TECHNICAL PARAMETERS

Density	1.16±0.1g/cm ³
PH	7-9
Chloride content	Nil, EN 934
colour	brown

STORAGE AND HANDLING

Hydroplast 250GP should be stored at room temperature, there is a tendency of freezing at a temperature below 0°C keep away from direct sunlight and protect from extreme temperature. Care should be taken when handling the product to avoid spillage.

Failure to adhere to the recommended storage condition, may lead to accelerated shelf life of the product and packaging. For further information on storage and handling, please consult armorsil technical department.

HEALTH & SAFETY

Hydroplast 250GP is an ecofriendly product, spillage should be flushed with cool water immediately, if swallow consult your doctor immediately.

QUALITY

Armorsil Inc is a multinational construction chemical product manufacturer, with present in United States, Canada, Turkey, United Arab Emirate and over 40 countries. All product originating from armorsil are manufactured under a management system to conform to the requirement of the quality, environmental and occupational health and safety standard ISO 9001, ISO 14001, and ISO 45001. All measurement and materials are selected according to ASTM C-494, type G

PACKAGING

Hydroplast 250GP is available in 1000litres, 210litres and 25litres. This product is available on demand.

STATEMENT OF RESPONSIBILITY

The technical information given in this armorsil solution publication are based on the current state of our best scientific and practical knowledge of analysis. The information herein is of general nature, no assumption can be made as to product suitability for a use or application and no warranty as to its accuracy, reliability or completeness either expressed or implied is given other than those required by law. The user is responsible for checking the suitability of product for their intended use

LIMITED WARRANTY

All recommendations, statements and technical data herein are based on tests we believe to be reliable and correct, but accuracy and completeness of said tests are not guaranteed and are not to be construed as a warranty either expressed or implied. User shall rely on his or her own information and tests to determine suitability of the product for the intended use and user assumes all risk and liability resulting from his or her use of the product. Nothing contained in any supplied materials relieves the user of the obligation to read and follow the warnings and instruction for each product as set forth in the current Technical Data Sheet, product label and Safety Data Sheet prior to product use away.

Armorsil Manufacturing supplies products that comply with the properties shown on the current datasheets. In the unlikely event that products supplied are proved not to comply with these properties, then we will replace the non-compliant product or refund the purchase price. Armorsil Manufacturing does not warrant or guarantee the installation of the products as it does not have control over the installation or end use of the products. Any suspected defects must be reported to Armorsil Manufacturing in writing within seven working days of being detected.

Armorsil Manufacturing. Makes no warranty as to merchantability or fitness for a particular purpose and this warranty is in lieu of all other warranties express or implied. Neither seller nor Armorsil Manufacturing shall be liable to the buyer or any third person for any injury, loss or damages of any sort including remote or consequential damages, down time, or delay directly or indirectly resulting from use of or inability to use the product. . The information contained in the latest data sheet supersedes all previously published editions. Visits to site by Armorsil personnel do not constitute supervisory responsibility. Armorsil reserves the right to alter the information contained in this datasheet without prior notice
